

**One is a bun**

**Six is sticks**

**Two is a shoe**

**Seven is heaven**

**Three is a tree**

**Eight is a gate**

**Four is a door**

**Nine is wine**

**Five is a hive**

**Ten is a hen**

1 is a bun and cranial nerve 1 is olfactory. So you could visualize a nose diving into a bun:

2 is a shoe, and cranial nerve 2 is optic:

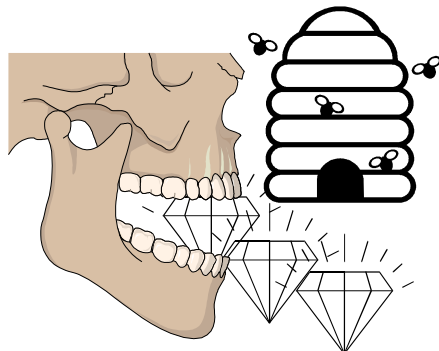

3 is a tree, and cranial nerve 3 is oculomotor — so continuing with the eye theme, and bringing in something that cues us to motor:

4 is a door, and cranial nerve 4 is trochlear — still with the eyes, and bring in a truck to cue the name:

5 is a hive, and cranial nerve 5 is trigeminal, which relates to the jaw — so something to cue the jaw and something to cue the name (three gems):

6 is sticks, and cranial nerve 6 is abducens — back to the eyes, and bringing in a ufo to cue the name (alien abduction):

7 is heaven, and cranial nerve 7 is facial:

8 is a gate, and cranial nerve 8 is auditory, so let's give our gate some ears:

9 is wine, and cranial nerve 9 is glossopharyngeal, which relates to the throat:

10 is a hen, and cranial nerve 10 is vagus, which relates to the heart, which we'll do in pale pink, to make it a little vague:

The rhyming pegwords I gave you only went to 10, but we can add to this traditional list:

11 is a lemon

12 is shelves

**Eleven is a lemon**

**Twelve is shelves**

Cranial nerve 11 is accessory, which relates to head movement, so we use a bag to indicate an accessory, and try to put our lemons and our shrunken head into it:

Cranial nerve 12 is hypoglossal, which relates to the tongue, so we use a hypodermic needle to cue the name, and throw in the tongue and our shelves:
